LIGHTWAVE38'

PROVEN BLUE WATER CRUISER WITH PRECISE, RESPONSIVE PERFORMANCE

The Lightwave 38 Sailing Catamaran exudes elegance with its sleek appearance and modern flowing lines, and delivers superb handling and excellent performance in bluewater conditions.

SLEEK, ELEGANT STYLING

The design is spacious and airy, featuring safe & user-friendly systems. Catering for harsh & humid conditions, the superior equipment and finishes are designed to last and withstand the elements. Distinct in its practicalities and styling, Lightwave's signature raised steering station, offers full protection from the elements and excellent vision. All controls are at the skipper's fingertips. Vision and communication is maintained with guests in the galley, saloon, cockpit and deck areas. The protected cockpit area with hardtop, offers a spacious outdoor lounging & dining area, whilst providing space on top for solar panel mounting and access to the boom. An upper mainsheet bridle system or traveller on top of the hardtop can be incorporated with the raised cockpit transom seating option. A seamless flow to the inside saloon area provides the perfect place for both entertaining or relaxing and enjoying the surrounding views. With generous full headroom throughout, this expertly crafted vessel is complimented by the characteristic Lightwave super-yacht finish, featuring two pak paint finished walls, with hand finished solid timber accents throughout.

LUXURIOUS, CUSTOMISED COMFORT

Choose from a variety of layouts or customise your own. Options include Galley Up; an optional Full Forward Ensuite with separate shower and toilet areas; the Master Aft cabin option features a viewing window in the hull and offers an island style queen bed; and an end mounting bed configuration is also available in the port forward cabin.

Individual customisations are available, and met with ingenuity. A recent customised feature incorporated into a Lightwave 38' by owners request, was a light tough build and a port side daggerboard to enhance performance for racing. Roger Overall of Lightwave Yachts, designed the board to exit cleanly through the bottom of the mini keel.

PRESTIGIOUS, TRUSTED BRAND. AUSTRALIAN MADE.

If you are seeking an exceptional, luxury, cruising catamaran for coastal cruising, look no further than the Lightwave 38' Sailing Catamaran.
